Greetings from Darrell McClanahan

June reminds me of a quote from comedian, Billy Connelly, regarding my ancestors' country of origin: "There are two seasons in Scotland: June and winter." With all of the rain and cool weather lately, I'm starting to feel the same way. My heritage gives me a fondness for Celtic symbols, my favorite being the Claddagh ring. This symbol has a heart, a pair of hands, and a crown. The heart symbolizes love; the pair of hands represents friendship; and the crown depicts loyalty. These attributes of the Claddagh ring apply to many aspects of my life, including here at Mosby. It's nice to come to a place where I love to work with friends who I have a deep loyalty to. As we approach the mid-year, I wish the best for each of you, and please know, as a loyal Scotsman, I'm standing with you every step of the way.

The Choices campaign worked well for Susan Neunreiter of Kirkwood, helping her make simple a la carte changes to improve her daily life. Updates to the kitchen include a new range hood and dishwasher, granite countertops, and porcelain tile to give the kitchen a whole new look. In the living room, a red brick hearth gets a Lagos Blue limestone face, a clerestory window is installed for increased natural light, the bay window is insulated for added comfort and efficiency, and new paint will complete the picture. We served all of the client's needs for function, appearance and budget.

Chris Mueller called to say that she and her husband, Bob, have NEVER had such a **wonderful remodeling experience**, and felt so comfortable leaving their house in our hands. **Oleg Podgorny** and **Luciano Souza** were very polite and always let them know when they were leaving for lunch or for the day. They were extremely hard workers. The Mueller's are **extremely happy clients** and want Scott to know how very pleased they are with their choice to use Mosby, and will continue to tell others of their experience!!! *Side note: Chris is Ukrainian and loved talking recipes with Oleg!*
